

System Requirements & Supported Devices

Introduction

AlphaPawn.net is a windows database application built on .NET framework and written in Microsoft® Visual Basic. It runs as a standalone application on one workstation or in a client/server environment over multiple workstations. Included with installation is a feature-rich SQL Server Express database. The convenience of AlphaPawn.net is that it can be installed on most standard Windows based computers that you can purchase today. Enclosed is a list of our **Minimum Recommended System Requirements & Supported Devices**:
